

Artist of the week

Nikkie W from Lansing, Michigan

Pictured is Nikkie's daughter's wedding bouquet.

More below.

Nikkie has been beading for about 10 years. This type of beaded flower is actually simple in concept to make. Simple in the sense that the Great Pyramids are only stacked stones. These beaded flowers are on wire and she used floral tape as well with the size 11/0 Japanese seed beads. As for hours she guessed at 200 over the span of 2 months.

The last flower was made 1 week before the wedding.

A bouquet that will last a lifetime and

Can be a wonderful heirloom to be passed from generation to generation.
